

Dimension Cabinet SERIES

Enhanced
Features

*Dimension filing cabinets...
quality features at an attractive price.*

Australia's most popular filing cabinet now features a smooth, full extension ball bearing runner system, which allows complete drawer access and resists jamming even under full load. Dimension's high-sided zincseal drawers can easily support your filing needs and runner buffers prevent drawers drifting open when closed for additional safety. The space efficient, slimline cabinet includes a welded internal frame with support channels under each drawer for added stability, and is available in an extensive range of fashionable powder coat colours.

Homefile[®] Cabinet

Assembled

Self Assembly*

*Namco Homefile ...
the compact solution for the home office!*

Keep your personal documents safe at home for years. With a depth of only 380mm and compact runner system, the two drawer Homefile takes up very little space and can even be stored inside an existing cupboard or wardrobe. Although small in stature, the Namco Homefile has been designed to store standard suspension files in a high-sided drawer body design and offer years of reliable service with full metal construction, rugged runner design and durable powder coat paint finish. Choose from the standard non-locking, self-assembly cabinet or the fully-assembled, locking model.

Legal Filing Cabinet SERIES

*Namco Legal filing cabinets...
an open and shut solution.*

Namco Legal filing cabinets are designed for multi-drawer convenience and storage flexibility. The Legal Combination unit offers a full height drawer to store standard foolscap suspension folders, whilst half-height box drawers can be utilised for card index systems, floppy disks, audio and video cassettes. The cradle-runner system allows drawers to be fully extended for unobstructed access and effectively prevent drawers from jamming. Concealed lateral support bars under each drawer ensure Namco Legal filing cabinets can take the heaviest load.
